

# Tim Williams

## IT OPERATIONS LEADER

O’Fallon, MO | 636.312.7555 | [tim@utiki.net](mailto:tim@utiki.net) | [utiki.net](http://utiki.net) | [linkedin.com/in/twilli](https://www.linkedin.com/in/twilli)

Infrastructure and service operations leader with 30 years in technology, including hands-on systems engineering and leadership of customer-facing technical teams. I have led infrastructure serving roughly 20,000 customers, reduced onboarding from ten weeks to three, and improved uptime from 99.6% to 99.99%.

|                     |                          |                         |
|---------------------|--------------------------|-------------------------|
| \$1M+               | 96%                      | 15,000+                 |
| ANNUAL COST SAVINGS | POSITIVE TEAM ENGAGEMENT | HOURS ELIMINATED / YEAR |

## CAREER HIGHLIGHTS

- Led global infrastructure serving 20,000 customers across enterprise, managed-service, and private-cloud environments.
- Built and scaled a 24/7 Tier 1–3 technical support operation from 7 to 250 people, including the leadership structure and service model for a 250-seat support center.
- Published a Microsoft white paper on the manual reinstallation of the Ceres indexer for Exchange and Microsoft SQL environments.

## EXPERIENCE

### Securian Financial · Senior Manager, Engineering · Remote · 07/2022 – 09/2026

- Reduced annual operating costs by more than \$1M (26%) through vendor consolidation, infrastructure optimization, team redeployment, and process improvement.
- Expanded responsibility from 3 to 4 engineering teams across web infrastructure, CMS, mobile, and digital operations while achieving 96% positive team engagement.
- Led campaign automation efforts that eliminated more than 15,000 hours of annual work across Engineering and Marketing.
- Spearheaded enterprise AI adoption by evaluating and implementing 15+ tools and educating executives on GenAI capabilities and use cases.

### UFS, LLC · Infrastructure Engineering Manager · Remote · 01/2021 – 03/2022

- Increased customer satisfaction from 80% to 93% by standardizing engineering practices and improving response times.
- Led an 11-person infrastructure engineering organization across systems, networking, virtualization, and storage.
- Rebuilt the systems engineering discipline, establishing multiple infrastructure teams and contributing to core architecture design.

### Zerolog / Performive · Manager of Systems Engineering · Remote · 06/2016 – 12/2020

- Served as a working manager for a private cloud provider supporting DevOps, systems, networking, virtualization, Windows, and Linux engineering disciplines.
- Led infrastructure delivery for 13 new data centers as part of a private cloud platform expansion.
- Led an ITIL/ITSM operational excellence program that reduced incidents by 30% and improved uptime from 99.6% to 99.99% over two years.

## EXPERIENCE (Cont.)

**Novaant · Owner · Remote · 04/2012 – 06/2016**

- Led a global engineering team from presales through implementation, with responsibility for customer architecture and delivery.
- Designed and implemented a \$200M, 300-host data center in Be'er Sheva, Israel, centered on web, Microsoft Exchange, and Active Directory.

## ADDITIONAL EXPERIENCE

**Novus International · Network Infrastructure Engineer · 12/2008 – 04/2012**

**Citi, Real Estate Division · IT Security Administrator · 07/2007 – 12/2008**

**321 Studios / FIG · Technical Support Manager · 07/2001 – 07/2007**

**MAXX Technical Computer Services · Owner · 07/1996 – 07/2001**

**MAXX Technical Computer Services · Technician · 05/1995 – 07/1996**

## CORE CAPABILITIES

### LEADERSHIP & ORGANIZATIONAL DEVELOPMENT

Engineering leadership, multi-team leadership, organizational transformation, talent development, operating model design, budget ownership, vendor management, cost optimization, incident management, and operational excellence.

### AI, AUTOMATION & DIGITAL PLATFORMS

Generative AI strategy, enterprise AI adoption, AI-assisted automation, Claude, ChatGPT, Gemini, Grok, Llama, Gemma, Codex, Claude Code, Hermes, Adobe Experience Manager, martech, mobile, web infrastructure, and design systems.

### INFRASTRUCTURE & CLOUD

VMware vSphere, Hyper-V, Azure, Azure Virtual Desktop, private cloud, hybrid cloud, cloud migration, high availability, disaster recovery, business continuity, SAN, NAS, Veeam, Commvault, and datacenter architecture.

### MICROSOFT & IDENTITY

Windows Server, Exchange, Exchange Online, Microsoft 365, Active Directory, Group Policy, Entra ID, ADFS, SSO, MFA, PKI, LDAP, SQL Server, and PowerShell.

### NETWORKING, SECURITY & OPERATIONS

TCP/IP, DNS, DHCP, WAN/LAN, VPN, switching, routing, vulnerability management, endpoint security, HIPAA, SOX, PCI-DSS, SOC 2, ITIL, ITSM, ServiceNow, Jira, SolarWinds, Nagios, CMDB, change management, and major incident response.

### DOCUMENTATION & EXECUTIVE COMMUNICATION

Architecture documentation, runbooks, process documentation, knowledge management, executive reporting, SharePoint, Confluence, Microsoft Teams, and stakeholder communication.

## EDUCATION & CERTIFICATIONS

ITIL v3 Foundations | Veeam Sales Professional (VSP) | Vatterott College – technical coursework
